SINGH

ISO 9001 : 2000

SINGH Conveyors are synonymous with excellent reliability. SINGH offers a wide range of conveying solutions answering all your requirements for Safe, Reliable and Easy to maintain Equipment. SINGH designs conveyor trusses that are simple and also compact, there by conveyors are very easy to dismantle, transport & erect.

The simplicity of SINGH design minimizes the use of specialized mechanical staff.

Special attention has been paid on designing of the head and tail pulley assemblies. The heavy duty assemblies ensure extended belt life due to excellent tracking facilities. Crowned, rubber coated drums also play a very important role in extending the belt life.

The widest range of optional accessories like scrapers & aligners from the most reputed brands are available with your Profit Partner, SINGH.

Operator safety has always been SINGH's priority. SINGH has developed a compr-ehensive list of safety equipment that can be added to ensure a risk-free operation.
